the **CREATIVE WAY**
to manage your law cases

Legal Case Manager

powered by:
FINGERTIPS

Legal Case Manager is our workgroup solution for legal firms, large and small, to manage their critical data. It is an affordable, efficient, secure, integrated and user-friendly document and information management tool which allows the legal firm to manage all their cases, correspondence and also to archive these documents for easy search and retrieval.

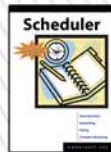

It comes with all the components necessary for legal document case management including storing, searching, indexing, editing, filing, viewing, audit-trails and reports. In addition, it also includes ;

Document Manager

Core engine for editing, viewing, scanning, storing, managing, searching, user and security management

Scheduler

Schedule all your case appointments & create reminders and trigger action items

MS Office Power Pack

Create and manage all your MS Office docs and templates centrally from here

Time / Expense Sheet

Tools you need to enter time and expenses, print invoices and get paid for the work you performed

Backup System

Easily backup all critical data into an external storage and can be schedule Daily, Weekly or Monthly to operate automatically
